

# How to Make 360 degree Feedback with Sorwe

” Take advantage of professionally prepared question sets with 26 different competencies or create your 360 feedback survey in minutes by uploading your company-specific competencies and behavior sets.

” Include people outside of your organization as assessors, as well as employees in your organization. Whether external customers respond easily from mobile or web.

” Let's create the evaluator distribution of the question sets automatically with artificial intelligence technology. Let's follow the process end to end with smart reminder. Reduce your workload and complete evaluations quickly.

” Automatically generated detailed individual reports are always at your fingertips in Sorwe Management Panel. Create reports specific to your organization with department, position and many more profile selections.
